

Brzica Winery

Discover the Essence of Erdut at Brzica Winery

Nestled in the picturesque Erdut region, Brzica Winery has been a beacon of excellence since 2000. With 6 hectares of vineyards perched 80 meters above the Danube River, our winery offers breathtaking views and exceptional wines. Our unique location, combined with the loess soil, creates the perfect environment for cultivating high-quality grapes.

Our Wines:

- **Cabernet Sauvignon:** This intense ruby red wine with subtle purple hues is rich in extract and aromatic complexity. It offers characteristic grassy notes and aromas of ripe cherries. Aged in 225-liter medium-toast oak barrels, this dry wine is crafted for those who appreciate bold and expressive reds.
- **Cuvée Rendezvous:** A masterful blend of Cabernet Sauvignon, Merlot, and Vranac, this wine undergoes meticulous aging, including at least three years of barrel aging and two additional years of bottle aging. It showcases robust tannins and elevated alcohol content, offering a rich and evolving tasting experience.

At Brzica Winery, we produce up to 25,000 bottles of high-quality wine annually, with 65% dedicated to red wines, all barrel-aged and released only after at least four years of cellar aging.
